Aetna Adds Two New Hospitals to the Network

Your Aetna health insurance plan includes a large network of doctors, hospitals and other medical providers. By seeking treatment within this network, you are only required to share a relatively small amount, in the form of a copay or deductible, of the cost of your medical care.

While Aetna's network is quite comprehensive, they are always working toward adding more quality providers to meet your needs.

Effective February 15, 2006, Aetna has added the following two additional hospitals to their Northern New Jersey network:

- 1) Muhlenberg Regional Medical Center
Plainfield, NJ
- 2) John F. Kennedy Medical Center
Edison, NJ

Muhlenberg Regional Medical Center,

John F. Kennedy Medical Center

Hopefully the addition of these hospitals will provide increased flexibility and value for Aetna members living in the surrounding areas. We will continue to keep you informed of any other important changes to Aetna's network.
